The following YODERS and affined folks have not yet been linked to our early progenitors. Your assistance by submitting clues and links to the **Yoder Newsletter**, P.O. Box 594, Goshen, Indiana 46527, is hereby solicited. Your participation will help preserve our common heritage for our descendants and will be greatly appreciated. Thank you.

All families and individuals in this listing are classified **MU** = Melchior, Unlinked.

The first segment of this listing, **MUA** to **MUZ**, consists of Unlinked Families. The second segment, **MUAA**, etc., consists mainly of Unlinked Individuals. The third segment consists of Groups of individuals in an identified area.

CAUTION: This **Unlinked** listing is constantly changing as new individuals are discovered and others are linked to their families and ancestors. Because of this fluid condition, the alpha-numeric classifications are subject to change without notice. You may have to search this list more than you anticipated. If you can no longer find a small family or individual thought to be a descendant of Melchior YODER, "M", in this Unlinked listing, they have probably been linked and now appear in **Parts One to Five**.
